

YASH PATEL

Student | Narsee Monjee Institute of Technology and Management
Mob : 9424314249 | e-mail : yash273p@gmail.com |

OVERVIEW

B.Tech Computer Science student with skills in Web Development, C++, C, Python, Java, MongoDB, NodeJS, Express, and JavaScript. Experienced in building scalable and efficient solutions. Focused on continuous learning, software development, and personal growth, with a disciplined approach to fitness and academics.

ACADEMIC PROFILE

BTech Computer Science at SVKM's Narsee Monjee Institute of Technology and Management.

SVKM's NMIMS

August 2022 - Currently Pursuing (August 2026)
CGPA - 2.4/4.0 (Till SEM V).

Senior Secondary (Class XII)

Army Public School No.1 (CBSE)

Year of Completion: 2022
Percentage: 68%

Secondary (Class X)

Army Public School No.1 (CBSE)

Year of Completion: 2020
Percentage: 81%

TECHNICAL SKILLS

• Keyskills :

- Web Development
- C++
- C
- Python
- Java
- JavaScript
- NodeJS
- Express.js
- MongoDB
- Database Management
- Backend Development
- Frontend Development

OTHER SKILLS

Hobbies : Swimming, Playing Badminton, trekking, Cycling

Languages : Hindi, English,

EMPLOYMENT HISTORY

Community Service Experience

Volunteer, Ladli Basera (Orphan Home for Girls)

June 2023 - July 2023 (25 Days)

- Conducted daily English teaching sessions, focusing on fun learning methods to enhance language skills and boost confidence.
- Organized interactive games and activities to make learning engaging and enjoyable.
- Built strong mentor-mentee relationships, encouraging personal growth and emotional well-being.
- Contributed to creating a positive, supportive environment through regular interaction and guidance.

Project 1 : Laundry Management System

- Technologies: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
- Role: Developer (Software Engineer)
- Developed a database-driven system to automate laundry operations, focusing on order tracking and service management.
- Built backend logic using Node.js and Express.js, with frontend interfaces in HTML, CSS, and JavaScript.
- Configured MongoDB for efficient data storage and optimized backend workflows.
- Milestone: Completed a fully functional system enhancing service efficiency, though not deployed online.

Project 2 : E-commerce Website

- Technologies: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
- Role: Developer (Software Engineer)
- Developed a scalable and responsive e-commerce platform featuring product listings, user authentication, and shopping cart functionalities.
- Built backend APIs using Node.js and Express.js, ensuring efficient data handling and secure user interactions.
- Integrated MongoDB for dynamic data storage and seamless product management.
- Designed the frontend using HTML, CSS, and JavaScript, ensuring a smooth and engaging user experience.
- Focused on optimizing performance, ensuring quick load times and intuitive navigation.
- Milestone: Successfully created a functional and robust e-commerce system, though not deployed online.
